

Test-Taking Reflection Wheel (3-8)

Teacher Instructions

Use this reflection wheel to help students think about accountability and their role in preparing for success. Each section of the wheel has a prompt. Have the students choose two prompts that stand out to them and respond to each with a paragraph and/or drawing. After students have completed their responses, provide time to share with a partner or the class. This can be done during advisory, morning meetings, or stations during test week or after a test.

Test-Taking Reflection Wheel (3-8)

Name: _____ Date: _____

Directions

Look at the four statements on the reflection wheel. Choose two that you connect with the most. Write a short paragraph or draw a picture showing what you think of each one. You'll share your reflections with a partner or the class when you finish.
