

Leading with a Full Cup: Little Lifts for School Leaders

I lead with clarity and purpose, even when the path is uncertain.

I make space for progress, not perfection, in myself and others.

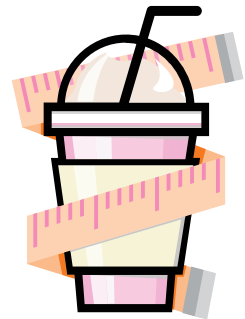

I trust my instincts and experience to guide thoughtful decisions.

I ask for help when I need it and offer support when I can.

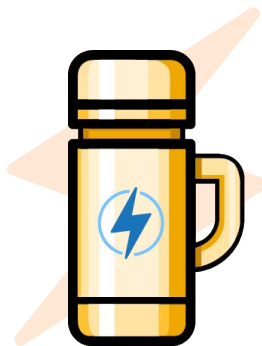

I stay rooted in the “why” behind my work, especially on tough days.

I recognize growth, even when it's quiet or slow.

I bring consistency and care to each conversation, meeting, and moment.

I give myself permission to pause and recharge—it strengthens my leadership.

I celebrate the small wins that keep our school moving forward.
